EDUCATION

New York University, College of Arts and Science **Expected 2027**
Bachelor of Arts in Computer Science and Data Science **3.8 / 4.0**

- **Organizations:** LikeLion@NYU (Vice President), Tech@NYU (TrekTrack), Product Management Club
- **Coursework:** Agile Software and DevOps, Operating System, Basic Algo, Natural Language Processing, Programming Tools for Data Scientist, Principle of Data Science, Linear Algebra, Discrete Math

WORK EXPERIENCE

Product Owner Intern **Mar 2025 – Dec 2025**
Planfit - Activation/Subscription Team

- Owned 30+ full-cycle sprints, leading problem discovery, KPI definition, PRD writing, cross-functional execution, and technical QAs, while driving data-informed iterations through Amplitude/SQL analysis
- Launched an end-to-end leaderboard features as the Sole Builder, leveraging AI-augmented workflows (Claude Code, MCPs, Figma Dev) to increase the engagement by 20% and generate 1,000+ user-created clubs
- Conducted 30+ user interviews and market research, translating insights into prioritized product roadmaps

AI Engineering Intern **Mar 2024 – Jun 2024**
Parachute

- Developed a RAG-based resume processing system featuring Python ETL pipelines for automated data extraction, improving mentor-mentee matching speed by 18% by reducing manual parsing overhead

PROJECTS

Automated A/B Testing System **May 2025 – Jun 2025**
Make.com, GPT API, Django REST APIs, React Native, Amplitude

- Engineered a full-stack A/B testing system that automatically rotates variants based on performance driving localized paywall optimization and increasing CTA CTR by 15% and subscription conversion by 10%

CulinAI **Jan 2024 – May 2024**
Javascript, NodeJS, CSS, Replicate API, LLaVa, SDXL-Turbo

- Built an AI-powered recipe generation platform that converts user-uploaded images into personalized recipes to reduce food waste, using multimodal models and Node.js, reducing latency to sub-2s via prompt optimization

SKILLS & INTERESTS

Languages/Frameworks: Java, JavaScript, Python, SQL, HTML/CSS, SwiftUI, React/Native, Django, Node.js
Tools/Technologies: Linear, Amplitude, Figma, Make.com, Zapier, Firebase, AWS, Docker, Xcode, GitHub,

AWARDS & CERTIFICATES

NYU CAS Dean's List **May 2024**
Google: Troubleshooting and Debugging Techniques **Jan 2023**
